Please indicate which priority theme(s) your proposed project will address.

- Creative and Multiple Solutions to Health Care Needs
- Culture & Tourism
- Labour Force Development
- Regional Cooperation

Please describe the work you propose to do and how this research could help address one (or more) of the four priority themes that have been identified for the Exploits Region. (1000 words maximum). For a full report outlining the community conversation and a more detailed description of the priority themes please visit the workshop page.

Information to include: title of your project; involvement of other Memorial partners/students; description of project activities and approach; how the project addresses one or more of the priority themes; any organizations/groups in the region you are already working with or would like to work with; and any other relevant information.
